AMENDMENTS

RECEIVED
MAR 24 2003
GROUP 3600

In response to the Official Action dated December 11, 2002, Applicants amend as follows:

Clean Copy of Claims as Amended

1. (Three Amended) A bench, which comprises:
- a plurality of rib units, each of which has (i) at least one functional surface such that a composite of each of the at least one functional surface of the plurality of rib units defines a substantially planar functional surface of said bench, and (ii) a single supporting member configured according to a pattern which varies from one rib unit to another such that a composite of the supporting members provides support for said bench and its load wherein each said support member of each rib emanates consistently among the rib units from either a front or rear portion of said bench;
- interconnecting means for securing each of the rib units to the others; and
